

MUMTAHIN ZIHAN | Junior Software Developer

I am a junior full stack developer who recently completed the “Kodiri” boot-camp in software development. I can think through a problem and have the confidence to make my thoughts heard. Throughout my time at Kodiri, I completed multiple projects individually as well as contributed to teamwork tasks via pair-programming. I am a self-starter, who is flexible and adaptable to any environment.

Projects:

- **Kodflix:** A List of movies fetched from backend, built with React.js, Node.js, JavaScript.
 - Made with React functional and stateful components, CSS Flex-box and grid layout, routing and links from react-router-dom.
 - Link: <https://kodflix-mumtahir.herokuapp.com/>
- **Portfolio:** A personal presentation of myself.
 - Made with HTML, CSS3, React, JavaScript
- **Festipal:** A React App of festival through pair programming, built as a team.
 - Made with React, JavaScript, Node, MongoDB
 - Link : <https://festipal-kodiri.herokuapp.com/>
- **Comlar Academy:** A custom webpage
 - Made with HTML and CSS3
 - Link - <https://mumtahinzihan.github.io/comlaracademy/>
