Mumtahin Zihan | Junior Software Developer

Location: **London**
Mobile: **+44 7954846003**
Email: mumtahin@yahoo.com

Personal Summary:

I am a junior full stack developer who recently completed the "Kodiri" boot-camp in software development. I can think through a problem and have the confidence to make my thoughts heard. Throughout my time at Kodiri, I completed multiple projects individually as well as contributed to teamwork via pair-programming. I am a self-starter, who is flexible and adaptable to any environment.

Areas of Expertise and knowledge:

- **Html5**
- **CSS3**: making responsive websites, layout with Flexbox and Grid, making animations.
- **JavaScript:**
- **JavaScript Unit Testing**
- **React**: Handle of stateful and stateless component; use of react hooks; use of routing, switch, links, redirecting page, event handling.
- **React testing with enzyme**
- **Node.Js**: Use of promises, fetching data from backend, creating Restful APIs, HTTP requests.
- **MongoDB:**

Projects:

- **Kodflix:** List of movies fetched from backend with Node.js
    - Built with React.js, Node.js, JavaScript.
    - *Used React functional and stateful components, CSS Flex-box and grid layout, routing and links from react-router-dom.*
    - Link:
- **Portfolio:** link goes here.
